

Youthrive Occupational Therapy Assessment Fee Schedule

Sensory

The purpose of an assessment is to identify what specific areas your child requires specialised support in. Assessments may include interviews with parents and other stakeholders, observations of your child, meeting your child and asking them questions, playing and completing specific tasks with your child, consulting with your child's school and/or completing questionnaires about your child.

As each child's sensory preferences and needs are ever changing, Occupational Therapists can assess these needs using the Sensory Processing Measure and the Sensory Profile. Both assessments, will contribute to understanding the impact of the environment on your child's engagement in what they want or need to do. To make an appointment, visit www.youthrive.com.au/contact.

Assessment	Fee
Sensory assessment and comprehensive report	\$400

*Assessment fees may differ from those provided above.
